### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9-12 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wollar et al.

As stated in the last Office Action, Wollar et al disclose an expanding fastener with an expanding portion that has four flat sides with a split 32 extending along each vertices between the sides. It would have been an obvious matter of design choice to one having ordinary skill in the art at the time of the invention to have provided Wollar et al with six flat sides (rather than four) on the upper expanding portion of the fastener. Note that Wollar et al disclose another embodiment with a different shape on the upper expanding portion, so Wollar et al provide the suggestion that other or a variation of shapes can be used.

### ***Allowable Subject Matter***

Claims 13, 14 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 20-28 remain allowed.

***Response to Arguments***

Applicant's arguments filed with the amendment have been fully considered but they are not persuasive. With regard to independent claim 9, applicant states in the remarks that claim 9 has been amended to include the limitations of claim 17 (which has been cancelled). The limitations included in claim 9 are broader than the limitations of claim 17, and, therefore, claims 9-12 and 16 remain rejected essentially as they were in the previous Office Action.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
